The 1208 SEQ is a simple to use 4 band parametric equalizer with switchable high and low curves, a high pass filter and optional light saturation. The frequency ranges, gain levels and Q's are loosely based on a classic British EQ.

32 bit VST2: Copy the entire folder "SEQ_VST2_x32" to your 32 bit VST2 folder.

64 bit VST2: Copy the entire folder "SEQ_VST2_x64" to your 64 bit VST2 folder.

64 bit VST3: Copy the entire folder "SEQ_VST3_x64" to your 64 bit VST3 folder.
