

# Classic Chorus by Kjaerhus Audio

Classic Chorus is a great sounding and easy to use classical Chorus VST plugin. Nice Plugin for adding Depth, Fatness and Stereo perspective to almost any Electrical Instruments or Vocal.

## Features

- Smooth Chorus effects
- Stereo spread
- Ultra low CPU usage
- Supports sampling rates up to 96kHz
- Full VST automation

## Tips

1. Make an old mono Rhodes track come alive with the factory preset "Fat on Rhodes", or make your vocal tracks sound better by creating a stereo doubling effect using the preset "Vocal Overdub". Many more great presets are available for fattening up your instruments!
2. Use it for a good vibrato effect.

## License Agreement

This plugin is a part of our Classic Series, a series of free VST plugins. Check our site <http://www.kjaerhusaudio.com> frequently to check for new free VST plugins and tips on how to use them. If you know anyone who is interested in a copy of this plugin, just ask him or her to go to our site and download it. If you got this plugin from any other source than our site, please don't use it! – Go to our site for a fresh download.

All plugins in the Classic Series is subject to our Classic Series License Agreement that can be found here: [http://www.kjaerhusaudio.com/documents/classic\\_series\\_license\\_agreement.pdf](http://www.kjaerhusaudio.com/documents/classic_series_license_agreement.pdf)

## Installation

Copy the "Classic Chorus.dll" file to your VST plugins folder.

## Known issues

This plugin is tested very thoroughly and to our knowledge there are no issues. If you run into any problems, with this plugin, please let us know. You can send an email to [info@kjaerhusaudio.com](mailto:info@kjaerhusaudio.com).

## Version history

Version 1.28 (February 22, 2005):

New:

- Hyperlink from logo, quickly allowing a check for updates and new products.

Fixes:

- Solved issue where the GUI was invisible and / or wasn't repainted properly in some hosts and wrappers.
- Solved issue with wrongly reported I/O sampling rate.
- Solved issue where plug-in would report that no GUI was available when requested by the host. This caused one host to not open the GUI.

Version 1.27 (September 4, 2004):

New:

- Redesigned Graphic User Interface.

Fixes:

- Problem with user interface not showing correctly in some Hosts or being partly erased after another window has been dragged over it is fixed.
- GUI size is now reported correctly to Host.

Version 1.26 (April 15, 2004):

New:

- Knobs are now operated with linear mouse movement instead of circular.
- Optimised code with lower peak CPU usage.

Version 1.25 (January 12, 2004):

Fixes:

- A few Host related capability issues solved.

Version 1.24 (November 19, 2003):

Fixes:

- Improved GUI update using fewer resources.
- Fixing problem when used in AudioMulch.

Version 1.23 (October 13, 2003):

New:

- New Logo.
- About box will open when the Logo is clicked.

Fixes:

- Dual Monitor problem fixed.

Version 1.22 (September 8, 2003)

Fixes:

- Noise burst problem introduced in the last update fixed.

Version 1.21 (September 7, 2003):

New:

- Minor adjustments have been done on the colour scheme.

Fixes:

- The last fix reduced the smoothness of the sound in the high frequency range - it is now back to normal.

Version 1.20 (July 28, 2003):

New:

- Unique colour makes it easy to distinguish from the other plugins in the Classic Series.
- Real parameter values are now being showed while adjusting the knobs.

Fixes:

- Problem with very loud burst noises in some systems is now fixed.

Version 1.11 (July 22, 2003):

Fixes:

- “Looping” problem under some Hosts now fixed. The problem was introduced in version 1.10.

Version 1.10 (July 20, 2003):

New:

- You can now grab the knobs by clicking anywhere on them. The knobs will no longer jump from max to min position in a clock vice motion and vice versa.
- Automated parameters are now listed with real names and values.

Fixes:

- It now works in stereo when used as send effect.

Version 1.00 (July 14, 2003):

- First release.
