END USER LICENSE AGREEMENT

PREFACE: This End-User License Agreement ("EULA") is a legal agreement between you and Needle Shell LLC, doing business as 194dB Audio ("194dB Audio"), covering the Auralume Saturator Lite software product ("SOFTWARE"). The SOFTWARE includes computer software and may include associated media, printed materials, and online or electronic documentation. By installing, copying, or using the SOFTWARE, you agree to be bound by this EULA. If you do not agree, you may not use the SOFTWARE. The SOFTWARE is protected by copyright laws and international treaties. The SOFTWARE is licensed, not sold.

LICENSE: Upon purchase, you may install and use the current version of the SOFTWARE, or any prior version, on an unlimited number of computers that you own or control, provided only the licensed individual uses the SOFTWARE. Institutions or companies may install the SOFTWARE on any number of machines so long as access is limited to authorized personnel who each hold a valid license. Demo versions are not licensed for commercial use. Downloads from official 194dB Audio channels are unlimited for licensed users.

RESTRICTIONS: You may not transfer, modify, rent, lease, loan, resell, distribute, network, electronically transmit, or merge the SOFTWARE or license keys. You may not reverse engineer, decompile, or disassemble the SOFTWARE, or otherwise attempt to discover its source code. Redistribution, sublicensing, or any transfer of the SOFTWARE or accompanying documentation to third parties is strictly prohibited without prior written consent from 194dB Audio.

COPYRIGHTS: All title and copyrights in and to the SOFTWARE (including but not limited to images, photographs, animations, video, audio, music, text, and applets), accompanying materials, and any copies are owned by 194dB Audio. Unauthorized reproduction or distribution is subject to civil and criminal penalties. VST and VST3 are trademarks of Steinberg Media Technologies GmbH. All other trademarks are the property of their respective owners.

DISCLAIMER OF WARRANTY: The SOFTWARE is provided "AS IS" without warranty of any kind. The entire risk arising from the use or performance of the SOFTWARE remains with you. To the maximum extent permitted by applicable law, 194dB Audio disclaims all warranties, express or implied, including but not limited to merchantability and fitness for a particular purpose. To the maximum extent permitted by applicable law, 194dB Audio shall not be liable for any consequential, incidental, direct, indirect, special, punitive, or other damages (including without limitation loss of profits, business interruption, or loss of data) arising out of this EULA or the use of or inability to use the SOFTWARE, even if advised of the possibility of such damages.

MISCELLANEOUS: This EULA applies worldwide to online distribution and is governed by the laws of Japan, without regard to conflict-of-law principles. Any disputes shall be submitted exclusively to the Tokyo District Court. For questions regarding this EULA, contact Needle Shell LLC, 3-1-5 Takadanobaba, Sun Patio Takadanobaba 309, Shinjuku-ku, Tokyo 169-0075, Japan. Phone: 050-1720-8134.

Features

Auralume Saturator Lite adds only the harmonics that matter, enhancing your sound with musical depth through simple and intuitive controls. While “saturation” can easily become harsh, excessive, or reduce the perceived size of the original signal, this plugin avoids those unwanted side effects. It is designed to provide just the right amount of energy and presence without introducing haze or musical clutter.

The SILK mode delivers a smooth and cohesive character, refining the top end without introducing harshness. It brings clarity and a silky texture to vocals and other aggressive or bright tracks, adding presence and polish while maintaining natural balance. This mode enhances detail without pushing the sound into unwanted sharpness.

The WARM mode provides greater thickness, power, and harmonic breadth. Compared to SILK, it produces a fuller and more expansive tone, making it well-suited for guitars, drums, and powerful vocal styles. It enhances body and intensity while preserving natural warmth, resulting in a sound that feels both strong and organic.

Auralume Saturator Lite front panel

Auralume Saturator Lite features a simple interface with only an AMOUNT knob and a button to select the Bias mode.

Auralume Saturator Lite controls

AMOUNT - Controls the amount of saturation applied.

SILK, WARM Select Button - Selects the Bias mode.

SILK Mode

Applies saturation without significantly altering the original sound, delivering a silky texture.

WARM Mode

Applies more aggressive saturation to the original signal, adding warmth and rich harmonic content.

Additional Information

Clicking the Auralume Saturator Lite logo or the 194dB Audio logo displays plug-in information.

System Requirements

Supported OS

Windows 10 or later / macOS 11 Big Sur or later

CPU

64-bit Intel processor or Apple Silicon (native support)

Memory

8 GB RAM or more recommended

Supported Plugin Formats

VST3 (64bit)

AU (64bit)

AAX (64bit macOS only)

VST3 is a trademark and software of Steinberg Media Technologies GmbH. AAX and Pro Tools are trademarks or registered trademarks of Avid Technology, Inc. Audio Unit, OS X, macOS, and Apple Silicon are trademarks of Apple Inc.

Enjoy!

- the 194dB Audio Team
