

# How To Install Basshead Mini

## For Mac

1. Place the “Basshead Mini Presets” folder in a safe location (e.g., Desktop or Documents).
2. Install the Plugin:
  - Copy BassheadMini.vst to your VST folder.
  - Copy BassheadMini.vst3 to your VST3 folder.
  - Copy BassheadMini.component to your Components folder.
3. After copying the files, restart your computer.
4. Open your DAW, load Basshead Mini, and select the “Basshead Mini Presets” folder.
